

# EmpowerED

## Empowerment Elevators

### Baseline Level

- Onboarding Orientation: Introduces teachers and leaders to resources, policies, and procedures related to special education.
- Basic Training: Provides fundamental skills and strategies for classroom management, differentiated instruction, and instructional strategies.

### Moderate Level

- Professional Development Sessions: Offers targeted workshops on specific topics such as individualized education plans (IEPs), collaborative co-teaching models, universal design for learning, assistive technology, & inclusive teaching practices.
- Community of Practice with Experts: Offers collaborative space for networking, guidance, and support in implementing best practices in special education.

### Top-Tier Level

- Leadership Development Training: Provides moderate level access and more! opportunities for teachers to develop leadership skills and take on roles such as department chairs, or special education team leaders.
- Advocacy Workshops: Equips teachers with knowledge and skills to advocate for the needs of students with disabilities at the school, district, and community levels.
- Access to our Guest Speaker Series: Join experts in the field of special education as they share cutting-edge research, strategies, and interventions.

## Let us help you take your leadership and teaching to the next level!

Each “empowerment level” provides progressively more intensive support and opportunities for growth, empowering general and special education teachers to continually enhance their practice and better meet the diverse needs of their students.
